Chair's Corner – May 2010

This year's April 15th tax day was made more enjoyable by our speaker, Pravir Malik, who spoke on the topic of Emerging Micro and Macro Levers of Quality. Our attendees were treated to Pravir's presentation which focused on the important micro-lever, managing individual stress, and a resultant important macro-lever, sustainability or corporate social responsibility. Thank you, Pravir, for your great talk!

Although it may be hard to believe, our last dinner meeting of the 2009-2010 season will be on May 20th. Our Program Manager, Mike Ahmadi and co-presenter Armand Mintanciyan will be speaking on the topic of the Quality Professional in a Mobile World. Processes such as auditing and validation execution (IQ, OQ, PQ) are being automated without compromising privacy or security while increasing productivity and efficiency. Their presentation will discuss how mobile solutions are achieving these accomplishments, as well as how we should shift our approach to quality in the wake of the emerging mobile ecosystem. Our last dinner event of the season will be held at Scott's Seafood.

Please [follow the link](#) to sign up for our May event. Hope to see you at Scott's on May 20th!
